Tom	NO PPE eating acid spilled chem.	sick toxic chemicals
Betty	no gloves/apron no hair tie pointing test tube @ TOM	skin exposure caught on fire TOXIC

Aug 9-7:43 AM

E. Critical Thinking and Applications

In each of the following situations, write 'yes' if the proper safety procedures are being followed and 'no' if they are not. Then give reasons for your answer.

1. Gina is thirsty. She rinses a beaker with water, refills it with water, and takes a drink.
2. Bram notice that the electrical cord on his hotplate is frayed near the plug. He takes the hotplate to his teacher and asks for permission to use another one.
3. The printed direction in the lab sheet tells a student to pour a small amount of hydrochloric acid into a beaker. Jamal puts on safety goggles before pouring the acid into the baker.

Aug 9-7:46 AM

4. It is rather warm in the laboratory during a late spring day. Anna slips off her shoes and walk barefoot to the sink to clean her glassware.
5. While washing glassware, Mike splashes some water on Evon. To get even, Evon splashes him back.
6. During an experiment, Lindsey decides to mix two chemicals that the lab procedure does not say to mix, because she is curious about what will happen.

Aug 9-7:53 AM

Complete the worksheet in your google classroom on Spongebob safety.

Write your list of safety rule violations on a piece of paper for turn in tomorrow!!

Aug 9-12:22 PM
